If you have not done so, adjust the height of your Monitor Shelf.

Install the H2 and H3 Hutch Shelf Supports onto the rear Legs of the desk. Use (8) short screws from the H7 bag, with no washer. Wax screws prior to insertion.

Make sure the slot in the Lower pair of Hutch Shelf Supports faces down and to the inside of the desk. The bottom edge of this shot should be higher than the top of your monitor, so that the Hutch Shelf Board will clear your monitor.
